- Video editing with Premiere Pro and After Effects.

Languages

- English - B2
- Spanish - Native

EDUCATION

Autonomous University Chapingo Mechatronics Engineering (incomplete) Jan 2017 to Nov 2020

My desertion was caused by economic problems, mainly. Although, some achievements are worth mentioning.

- MatLab GUI to simulate and calculate forces in static structures.
- MetQ, desktop application to calculate the potential evapotranspiration in open field crops and soil granulometry, developed in C#.
